**Re:** Clinton holds a 5 point lead in Colorado; Bennet up by 11 points

Hillary Clinton holds a 5-point lead over Donald Trump on the eve of the 2016 election, according to a Keating Research/OnSight Public Affairs poll released Friday. And Democratic Sen. Michael Bennet is cruising toward re-election with an 11-point lead over challenger Darryl Glenn.

This is the final poll in a series of Presidential tracking polls conducted in Colorado by **Keating Research, Inc./OnSight Public Affairs** leading up to the November 8, 2016 election. **Keating/OnSight** provides informative, accurate polling using live-interviewer telephone (cell and landline) surveys and was the most accurate in 2012 predicting Obama would win by 4 points in Colorado.

### President of the United States

Hillary Clinton leads by 5 points over Donald Trump (43% Clinton – 38% Trump). Support for Gary Johnson is at 7%, Jill Stein 2%, while 4% say they would vote for some other candidate.

*This late in the Presidential race a larger than typical number of voters remain undecided at 6%.*

The base have come home for both candidates, *registered Democrat* (83% Clinton – 6% Trump) and *registered Republican* (80% Trump - 8% Clinton), **while voters**

### Unaffiliated with any party

**continue to drive Clinton's lead (39% Clinton – 27% Trump)**, though 3<sup>rd</sup> party candidates receive a large share of the Unaffiliated vote (12% Johnson, 4% Stein and 7% other candidate).

**Clinton maintains a large gender gap in Colorado.** Clinton leads by 13 points among *women* (49% Clinton – 36% Trump), while losing by 5 points among *men* (36% Clinton – 41% Trump).

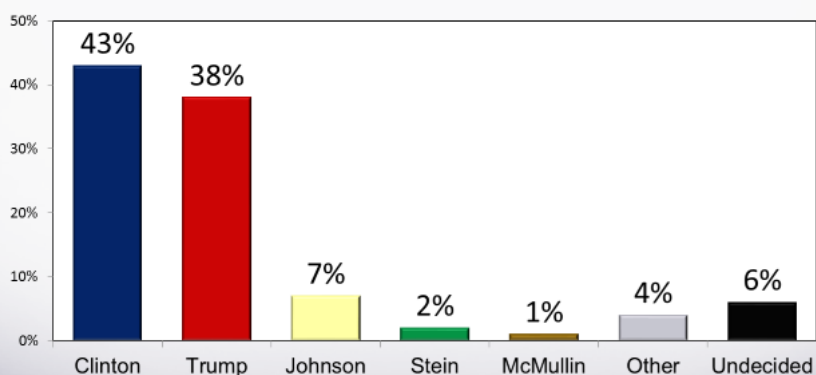

**Clinton leads by nearly 3-to-1 among Hispanics** (57% Clinton – 19% Trump) and the race is virtually tied with *White* voters (41% Clinton – 43% Trump).

**Turnout could very well be key in determining the final outcome of this election** - Clinton leads by 13 points among younger voters age 18-49 (43% Clinton – 30% Trump), while Trump is winning older voters age 50+ (45% Trump - 42% Clinton).

The bellwether *suburban Arapahoe and Jefferson counties* tend to determine the outcome of elections in Colorado, and here Clinton leads by double digits (46% Clinton – 33% Trump).

**Two-thirds of Colorado voters have already voted in this election and Clinton has collected a 4-point lead (44% Clinton – 40% Trump) among the early votes.**

**If already voted ask:** In the election for President, did you vote for Democrat Hillary Clinton, Republican Donald Trump, or someone else? **Rotate order of Clinton and Trump.**  
**If not yet voted ask:** If the election for President were held today would you vote for Democrat Hillary Clinton, Republican Donald Trump, or someone else? **Rotate order of Clinton and Trump**  
**If respondent says someone else ask:** Did you vote for Libertarian Gary Johnson, or Green Jill Stein, or someone else?

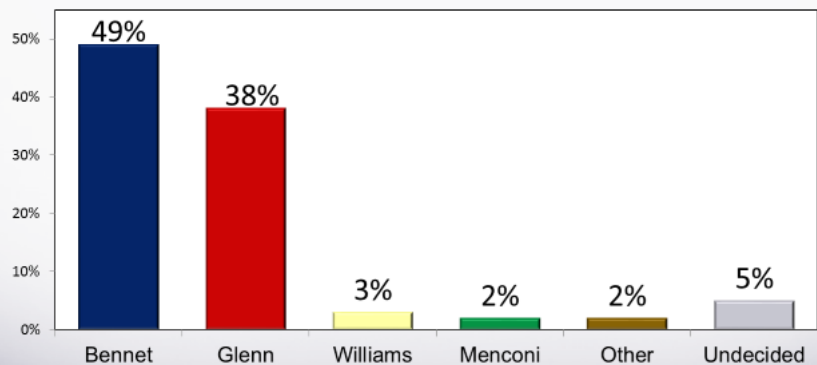

## U.S. Senate

In the U.S. Senate race, Michael Bennet has a comfortable, double digit 11-point lead over Darryl Glenn (49% Bennet – 38% Glenn) with 3% for the Libertarian Lilly Tang Williams, 2% Green Arn Menconi and 5% undecided.

Bennet holds large leads over Glenn across all key voter groups in Colorado including by nearly 2-to-1 among Unaffiliated voters (48% Bennet – 25% Glenn), by nearly 3-to-1 with Hispanics (65% Bennet – 24% Glenn), and Bennet is winning the majority of women (56% Bennet – 34% Glenn) while remaining virtually tied with men (42% Bennet – 43% Glenn).

**If already voted ask:** In the election for U.S. Senate, did you vote for Democrat Michael Bennet, Republican Darryl Glenn, or someone else? **Rotate order of Bennet and Glenn**  
**If not yet voted ask:** If the election for U.S. Senate were held today would you vote for Democrat Michael Bennet, Republican Darryl Glenn, or someone else? **Rotate order of Bennet and Glenn**  
**If respondent says someone else ask:** Did you vote for Libertarian Lily Tang Williams, or Green Arn Menconi, or someone else?

**Bennet has amassed a majority 9-point lead among those who have already voted (50% Bennet – 41% Glenn).**

## Denver Broncos

With the election season winding down, it's time to turn our attention to our beloved Broncos. Colorado voters are more likely to think the Broncos will win the Super Bowl this season - 42% believe compared to 37% who don't think it will happen, while 21% don't know.

Clinton voters are slightly more optimistic (42% believe to 37% don't think it will happen) than Trump voters (40% believe to 39% don't think it will happen), however **those who aren't for Trump or Clinton are the most optimistic about the Broncos chances (45% believe to 34% don't think it will happen)!**

*Keating Research is recognized by Democrats and Republicans alike as providing extremely accurate polling in Colorado. This polling data is based on 605 live-interviewer telephone surveys conducted November 2-3, 2016 among likely November 2016 voters statewide in Colorado. For this sample of 605 interviews the worst case margin of error at the 95% level is plus or minus 4.0%. Respondents were chosen at random from a list of voters with phone numbers: 363 surveys (60%) were conducted on cell-phone and 242 surveys (40%) were conducted on a land line.*
