70+	16%

SURVEY METHOD:

The Colorado Statewide Survey — November 2026 results are based on a hybrid poll (live-interviewer and text-to-online) of 400 likely November 2026 voters in Colorado statewide. Completes were set by quota on party, turnout history, gender, age, region and ethnicity, and the respondents are distributed to accurately represent likely November 2026 voters based on party registration, gender, age, region, education. The margin of error at the 95% level for the full sample of 400 respondents is plus or minus 4.9%. The poll was conducted November 1-2, 2026, by Keating Research.
